

CAROUSEL STUDIO

A clearer path from idea to publish.

Proposed user experience and implemented interface

19 desktop screens

3 mobile views

All five editor steps

Captured from the updated local app using isolated sample data.

This document is ready for a designer to review, annotate, and refine.

Sign-in is shown in a configured preview. Administrator and companion views require their account environment.

Design decisions

The interface uses familiar UX principles to make each next action easier to find.

01 One clear next action

Each page leads with the task the user is most likely to do next.

02 Progressive disclosure

Advanced style and reference controls appear when the user asks for them.

03 Recognition over memory

Clients, statuses, selected references, and editor progress stay visible.

04 Useful feedback

Readiness, approvals, and review states use plain words and consistent cues.

05 Consistency and access

Shared spacing, contrast, focus states, and responsive layouts span the app.

The screenshots on the following pages show the implemented proposal at desktop width, followed by mobile examples.

Client overview

Real completion status and next step

The image shows a web application interface for 'Carousel Studio', specifically the 'Harbor Dental Studio' workspace. On the left is a dark teal sidebar with navigation links: 'Home', 'Create carousel', 'Projects', 'Clients' (highlighted), 'Library', and 'Settings'. At the bottom of the sidebar is a 'YOUR WORKSPACE' section showing '0 credits available' and a description: 'Manage clients, build carousels, and review every slide.' The main content area has a top bar with 'Workspace / Harbor Dental Studio' and a '+ New carousel' button. Below this, the page title is 'Clinic – Dental WORKSPACE' followed by 'Harbor Dental Studio' in large bold text, with a subtitle 'Manage this client's brand, projects, and visual direction.' and a 'Create carousel →' button. A horizontal tab bar contains 'Overview' (selected), 'Projects', 'Brand kit', and 'Styles'. The 'Overview' tab displays a 'GET READY' section titled 'Set up this client' with the instruction 'Complete these details to make future carousels more consistent.' It lists four items: 'Business details' (Needs attention, Add →), 'Contact details' (Added, Review →), 'Logo and colours' (Needs attention, Add →), and 'Choose a style' (Needs attention, Add →). To the right is a 'NEXT STEP' section titled 'Ready to create?' with the text 'Start a new carousel using this client's details. You can add more brand information at any time.' and a 'Create carousel →' button.
